

TURNKEY AUTOMATION PROJECTS

Our project division supported by our software Division is capable of doing design, engineering, procurement, installation and commissioning of turnkey automation projects. Right from selection of sensor to automatically printing daily production report for director. Our team of engineer with professional experience is eager to meet you. Just brief us about your application and will offer you complete solution.

Jobs recently executed:

- Cut to length Automation for steel, paper and rubber industry
- Mixing Mill Automation for Rubber Industry
- Humidity and Temperature Management
- Weighting and batching for cement, slurry and food industry
- Level management automation for powder and chemical industry
- Furnace automation for continues and batch furnaces Hot billet sensing with automation for forging plants Machine
- Tool Automation
- Bearing Analysis Data Acquisition
- Automation and data acquisition for refrigeration system
- Bag counting system

Our customer for project automation:

- Kalyani Forge Ltd.
- Precision seals Ltd.
- Rich Quality Ice Cream
- Nirma Ltd.
- Krosslink Chemicals Ltd.
- Hemnil Engineers
- CCI Ltd.
- Edag Eng.
- Bilcare Ltd.
- Ultratech Cement
- Camlin Ltd.
- Philips Ltd.
- Siemens Limited
- Kirloskar Brothers Ltd
- Synergetic

COMPLETE TURNKEY AUTOMATION PACKAGE FOR CONVEYOR

- ElectricalPanels-MCCs
- Variable Frequency Drives and panels
- Logic and Automation Panels
- Wiring, Installation and commissioning
